

FOR FIELD ASSISTANCE PLEASE CALL +1-213-255-2060 #4

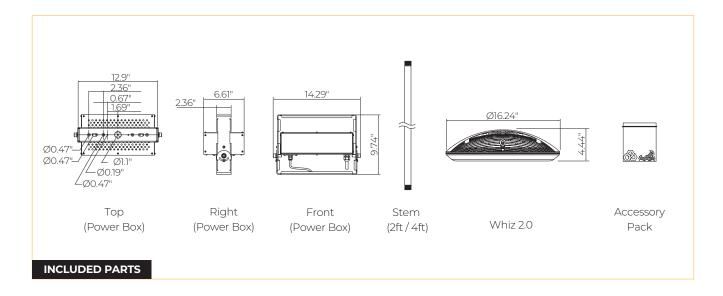

- Before wiring to power supply and during servicing or relamping, turn off power at fuse or circuit breaker.
- · All servicing or relamping must be performed by qualified service personnel.
- Product must be grounded to avoid potential electric shock or other potential hazard.
- Product must be installed at locations and heights, in a manner consistent with its intended use, and in compliance with electrical code and local codes.

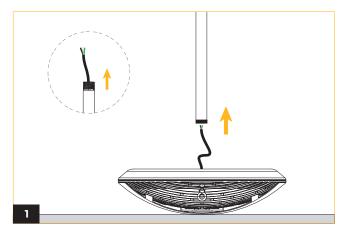

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE

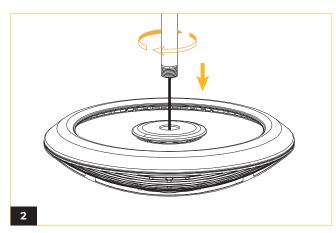

WHIZ 2.0 UPLIGHT

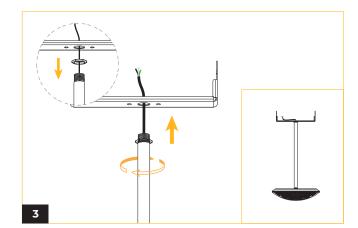

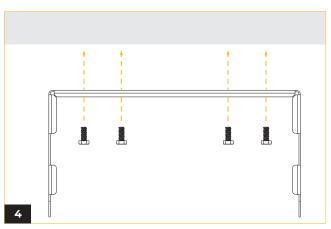

Screw stem in place.

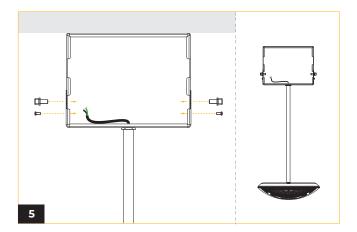

First, push the cables through a Hex screw and tighten on stem grooves. Second, fasten the stem onto the lower bracket.

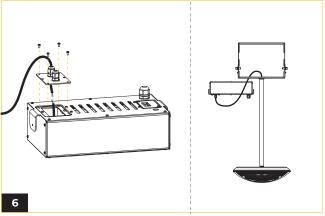

Fasten the top bracket on the desired location on the ceiling.

WHIZ 2.0 UPLIGHT

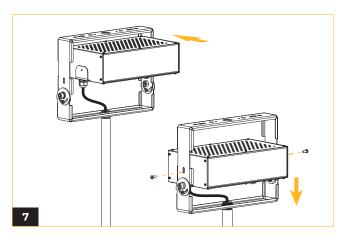

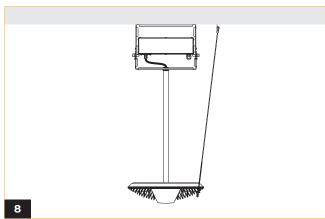

Align both lower and upper brackets and fasten in place.

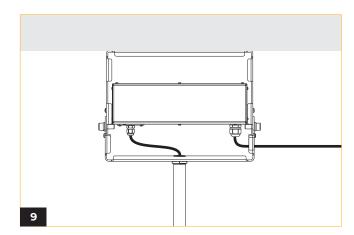

Open the DC Junction box and connect cables. Refer to wiring diagram section.

Slip the power box hook fastener over the lock-in grooves allocated and fasten screws on either side to keep the power box in place.

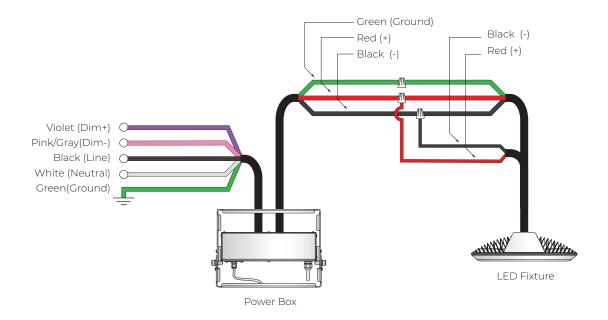

Hook the safety cable.

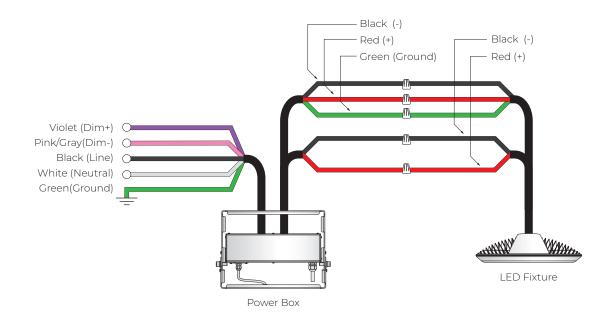

Connect AC Cable to Junction Box.
